Managers

ONARGA, ILLINOIS

YOU WILL BE PLEASED WITH OUR SERVICE

TERMS OF SALE

CASH PLAN: This plan earns 3% discount and free boxing. Remittances must be received on or before March 1st to earn this discount. On bulky stock, boxing sometimes amounts to 6 or 8%, so this plan earns a total of from 6 to 10% discount. Under this plan we book the order, and reserve the stock until March 1st for shipment.

PARTIAL PAYMENT PLAN: Whereby one-third amount of order is remitted in advance, and the balance goes forward Freight or Express C. O. D. payable at destination.

CREDIT: We extend the usual terms of credit to regular customers and to parties known to us; otherwise we require cash in advance or satisfactory reference with sufficient time before shipment to make necessary investigation. We will not accept orders until we believe that the buyer is good for the account. Fall shipments due December 1st, Spring shipments due June 1st.

PRICES: On amounts above 5 and under 10 apply ten rate. On amounts under 10 apply ten rate. On amounts 25 and over apply 100 rate. On amounts 250 and over apply 1000 rate.

GUARANTY: While we exercise the utmost diligence and care to have our stock true to name and hold ourselves in readiness on proper proof, to replace all trees, etc., that prove otherwise, or refund the amount paid, it is mutually understood and agreed between the purchaser and ourselves that we shall not in any case be liable for any sum greater than the amount originally received for said trees, etc., that prove untrue.

All orders are accepted by us upon the mutual agreement between the purchaser and ourselves that we shall not be responsible for other damages.

This catalogue cancels all previous price lists. Prices net no discount.

A certificate of inspection will accompany each order.

CLAIMS: No claims for rejections or deficiencies will be entertained unless made within five days after arrival of goods. In no case will we assume responsibility after consignment to purchaser. When losses occur by delays or other causes of whatever nature while goods are in transit, make claim **AT ONCE** on the forwarding companies.

CAUTION: We accept all orders upon condition that they shall be void should injury befall stock from frost, fire, hail storms or other causes over which we have no control.

PACKING: Packing will be done in the best possible manner, and charged for at the cost of material used. Boxes and bales delivered free of charge to all railway stations. After goods are delivered to forwarder in good condition our responsibility ceases.

REFERENCE: Onarga State Bank, Onarga, Ill. Mercantile Agencies.

NOTICE!

All goods sold by us are sold f. o. b. point of shipment, and while in transit are at purchaser's risk. We feel it is our duty to emphasize the fact that we do not insure the safe delivery of goods and that the title of any goods sold by us and consigned to the purchaser or consignee designated by purchaser passes to the purchaser upon delivery by us to the carrier at point of shipment.

And we desire to make it clear to the trade that the railroad or Express Company's receipt relieves us of all responsibility, and any claim for damages should be made immediately to the agent at the point of delivery.

SEND US YOUR LIST OF WANTS

We can often quote lower than our published rates on quantity lots.

Onarga Nursery Trencher

This is something new in a trencher for the planting of young shrubs, plants and trees. Made with three interchangeable beams. Illustration shows beam No. 1.

Beam No. 1 is the middle breaker type; it cuts the dirt, moves it to the surface, and deposits it on each side of the trench, thus giving an abundance of soft earth for bedding around the roots of the young plants. This beam is best adapted for light or sandy soils.

Beam No. 2 is side delivery type; it brings the dirt to the surface and deposits it on the side of the trench. We use this in heavy soil where the pull is too heavy on the team to cut the entire depth the first time through. We make a round with the machine to each trench thus depositing the dirt on each side, but cutting only half the depth each time through. The old style trencher packs the dirt on each of the walls of the trench and if the soil is heavy or a little wet it produces a hard smooth surface and the planter is often times hard put to find enough soft dirt to bed the roots of the young plants properly.

Beam No. 3 is for planting hard wood cuttings direct to the field. It drives a trench $\frac{3}{4}$ of an inch wide and to a foot in depth; thus properly handling the longest grapevine cuttings.

These three beams are interchangeable and all work on the same frame. The cutting depth is controlled by a lever handle operated from the seat. Trenchers are equipped with marker adjustable for three, three and one-half, or four foot rows. Neck-yoke or eveners not included.

Trencher with beam No. 1.....	\$105.00
Trencher with beam No. 2.....	100.00
Trencher with beam No. 3.....	90.00
No. 1 Beam only.....	65.00
No. 2 Beam only.....	45.00
No. 3 Beam only.....	35.00

If interested write us for complete description of this trencher.

One-Man Shrub Digger

This machine is the best labor saving machine on the market. It saves the labor of two men and four to six horses. Only one man is required to sit on the seat and operate. Handles as easily as a riding cultivator. For heavy 3-4 foot shrubs use four-horse eveners; for light digging only one team is required.

For pruning Evergreen roots and light digging, remove lifter adjust depth of blade by raising or lowering back wheel adjustment. In nursery rows where three or four varieties are growing in the same row to dig one of the varieties in the middle of the row, drive down the row to variety wanted, trip lock and digger will be in position as in illustration—dig variety wanted, raise blade to upright position where it locks, and drive on.

Very fine for June Bud Peaches. To dig 2 year apples wrap doubletree with burlap.

This digger is just the thing for a nurseryman with a few acres and short rows and is also just what the larger grower has been looking for. Will pay for itself the first week. Not carried in stock. Order early to have digger on hand when you want it.

Diggers with 18 to 20 inch blades are of extra heavy construction to withstand the additional strain.

Prices complete, eveners and neckyoke not included:

16 inch blade and arches.....	\$ 87.00
18 inch blade and arches.....	97.00
20 inch blade and arches.....	105.00
One 16 inch blade.....	14.00
One 18 inch blade.....	16.00
One 20 inch blade.....	18.00

Our Combination Pulverizer, Weeder and Drag

Weight 900 lbs.

Our Combination Pulverizer Weeder and Drag is the best tool we ever had in the nursery and is just the thing to follow up the cultivator. It mashes all the clods and the drag leaves the ground with a nice deep dust mulch which retains the moisture and at the same time brings any small weeds to the surface where they are quickly destroyed by exposure.

This tool straddles the row of young plants or trees thus taking two middles at a time or four to the round, while with the old fashioned drag one round was made for each middle.

We put this machine directly behind the cultivators before it has a chance to dry or bake into clods and one machine has no trouble in keeping up with three riding cultivators as the team will move faster on this tool than it will with a cultivator.

The depth and pressure of the teeth that make the weeder and drag which immediately follow the rollers is controlled by compression spring lever handles from the seat in easy reach of the operator.

For years we used the old fashioned drag which left the ground with a smooth gloss and each time we had a light summer shower our soil formed a hard crust and we had to immediately get out with our cultivators and break this crust. With this new tool our soil is finely pulverized but not glazed on top and will not form a hard crust after a summer shower as it did with the old drag.

The pitch of the teeth on the drag is controlled by a small lever handle and the cutting end of the tooth is shaped like a small cultivator shovel which has a tendency to bring any weeds to the surface where they are quickly destroyed by exposure.

Price complete, eveners and neckyoke not included, \$150.00

Our New Tree Digger

Price
Complete
\$135.00
Chain Traces
\$5.00 Per
Pair Extra.

This is something new in a Fruit Tree Digger, designed especially for digging Fruit trees and Evergreens. You will find this is the last word in a tree digger and is considerably ahead of anything yet on the market in tree diggers at the present time. It is so designed that where you have several varieties in the same row you can drive down to the variety wanted, trip the lock and the digger will be in position. Dig the variety wanted, raise the blade and drive on; you do not have to dig a whole row of fruit trees in order to get through to the other end. We guarantee you can dig more fruit trees with this machine than with any other digger on the market.
